SCHOOL DIRECTORS MEET IN NINETEENTH ANNUAL CON- VENTION AT GETTYSBURG

Addresses—Exchange of Views on
Queries and Discussion Make Very
Helpful the Meetings.

The Nineteenth Annual Convention of the School Directors of Adams County met in the court house on last Thursday morning. There was a large attendance and sessions were interesting and the efficient officers kept the convention on the move from the opening to the close. They were, President, Willis E. Thomas of Tyrone township; Vice Presidents, Wm. E. Kapp of Biglerville, and Josiah W. Prickett of Menallen; Secretary, Harry E. Stambaugh of Abbottstown, and Treasurer, J. Elmer Musselman of Gettysburg.

Rev. D. W. Woods, conducted the opening devotional exercises of scripture reading and prayer.

Prof. Calvin Hamilton made the address of welcome, saying among other things, Several years ago your superintendent asked me to welcome the directors and I declined, thinking he should have some one accustomed to do this. Last fall he asked me again and I consented, thinking perhaps he would forget it and have some one else but a week ago he recalled to me my consent. It ought to require no words of mine to give a sincere cordial welcome to Gettysburg. Gettysburg belongs to Adams county and is in a sense as much your town as mine and you are always welcome to your own. The common school is one of the common glories of our country for which the Commonwealth has made lavish appropriations. Many of you have traveled to a western city and over the portals of the depot found the permanent arch with the words "Welcome," and have also found throughout the city all kinds of attentions to get your money, land deals, get rich quick investments and the like. You will find no feature such as these at Gettysburg, except a few fakers who may want to sell you post cards. One of the commendable features of our school is that sectarian and political influences do not enter and control them. You select your teachers not by what church they belong to or party but by their character and ability. One of the virtues, and I think, the greatest feature of the school system, is that you are selecting men not on account of their politics but on account of their fitness. Many sins can be laid at the doors of the politicians of Pennsylvania but they have left the schools free of politics. This is shown in the fact that Dr. Nathan Schaeffer, the eminent superintendent at the head of the Department of Education has been retained term after term regardless of politics and the same fact has been exemplified throughout the State in the election of county superintendents. On behalf of the citizens of Gettysburg I extend a cordial welcome, hoping the sessions will be both pleasant and profitable.

President Thomas responding said, We have met for the purpose of discussing questions involving the welfare of the boys and girls. This work of educating the youth should not be placed in careless hands but conscientious ones and this work should be given to men of good sound common sense. The work is grand and noble and we can not be too conscientious in the discharge of our duties. Our educational system is worthy of commendation and was evolved through years of careful work. It is an easy matter to criticize but one should judge by the products. Follow our girls and boys who have gone out in the past forty years and see how they are holding their own and this is a good criterion by which to judge the work of the school. There is, however, a lack of sympathy with our work and we must cultivate a public feeling of sympathy with our work for the schools. Our duties are both pleasant and unpleasant, pleasant in the consciousness of doing our work as well as we can and unpleasant in being blamed for much that we are not responsible for, but this criticism does not come from our best people, and it should not deter us and we should go ahead conscientiously with our work. We have come here to discuss questions for improvement and every one should be free to discuss them. I thank you for having been made president of your body.

Reports were called for from delegates to the State Convention.

Josiah W. Prickett said it was his privilege to attend the State Convention and I went with the determination to bring back something for my own school board and this convention. The program covered all the difficult questions we are facing. I think a strong point of the convention is the informal discussion of questions outside the meetings with delegates from other districts. These conventions are inspiring to any director who attends. Sympathy from the patrons of the schools is needed in our work. My point of view has often been changed by visiting school, and the patrons would give more sympathy if they visited the schools and get better acquainted with conditions there. I was interested in an article at the convention on school buildings by an architect in which he contended that a good school building created an interest in the pupil which a poor building would never do.

Allen J. March of Abbottstown, said he went as an alternate, that Lieut. Gov. Murphy gave a good address on vertical writing, which he said was the fault of our poor penmanship. He spoke of the stupid boy who should not be turned out of school, but treated very kindly and he thought there should be a better teaching of English and that the effort should be to get more children to attend high schools, as now but 1 out of 20 get to a high school, and he said the teacher should be better paid. Dr. Nathan Schaeffer talked on the waste of the child energy through incompetent teachers. Dr. M. G. Brumbaugh forcibly presented the thoughts, how did I get into the world, how out and what I might best do. I must know something to do something. The teacher who does not know how to get attention does not know how to teach. Dr. Edmund gave us a good talk on how directors are criticized for spending money. Our deputy superintendent, Ried B. Teitrick, spoke on natural resources, and that the child should be made better by building better houses, better play grounds and surroundings.

D. S. Reynolds said he was at convention and delegates who had spoken had given a good report of it.

Supt. H. M. Roth said the County Superintendents had a convention last week and one of the questions discussed was the length of term of school director under the constitutional amendment and that it is the opinion that the term will be four years. That there is doubt also whether the new director will begin his duties first Monday of June or whether the old director will hold over until December. These questions have been put to the Attorney General and his decision is awaited. Rev. John H. Peters, one of the delegates, passed away, and also Rev. John A. McDermid, both very active school directors in their districts. We had four representatives in the State Convention of School Directors. No one can attend without coming away much inspired and no one can come to the county conventions without feeling that it was worth while. We trust the directors can remain and attend all the meetings. Dr. J. R. Dickson of this place, who is the medical inspector of our schools, informed us yesterday that he was authorized to appoint eleven assistants, so that all the schools of county will soon have medical inspection. I trust this convention will go down as the most pleasant and profitable you have ever enjoyed.

Five minute talks by members of convention being called for the following responses were made.

James C. Wright of Bendersville, said we have not the means to build schools and furnish them as they do in cities. If the State would have given us the money spent in the capitol I believe we could have made our schools better and more sanitary and better furnished and we would not have allowed any charges per foot. Henry Butler of Conewago said, when we are going to build a school house, build the best. It is a permanent improvement. Make the best we can with our means, make it thorough instead of in an indifferent manner and it will be appreciated by the patrons and children.

Josiah Prickett stated that it had been his thought to have discussed here how drinking water is kept in our schools, whether water is kept in open vessels and uncovered. John A. Knouse of Arendtsville, replied that in his town the schools are using stone jars covered, having spigots and that the children have been supplied with individual drinking cups. Wm. D. Myers of Hamilton, said his township had secured the jars and that they were proving satisfactory. Henry Butler of Conewago said the common drinking cup should be abolished. Each child should have its own individual cup and they should not be dipped into the vessel and the vessels should be covered as we have done. Geo. B. Boutsong asked where are these cups kept and Mr. Butler answered, The children keep them at their desks. M. P. Stoner of Highland, asked, Who furnishes these cups, school board or patrons, and Mr. Butler replied that in Conewago the directors had bought 240 agateware cups at 2 cents a piece. The Thursday afternoon session opened with introduction of Dr. S. G. Hefelbower, president of Gettysburg College.

Dr. Hefelbower said I feel it is a privilege and responsibility to be here and the greatness of this privilege and responsibility is not personal. If I interpret rightly the duties of the school directors are as trustees of one of the most sacred institutions. In this free country where each man has the responsibility of the franchise there is the duty of training the man to be, to make him a desirable citizen. The function of the director is the training of a virtuous, upright citizenship, and this function is of the most sacred sort. Into your hands are placed the training of generations now growing up, the responsibility of a nation to be. Show me the spirit of the teacher today and I'll tell you what the spirit of the coming generation.

In selecting the teachers the director does not consider scholastic qualifications alone but the character of the teacher. If you don't do this you fall short of your duties. If the vote of the director hinges upon friendship and not character he is not true to his trust. As soon as the slimy hand of politics shows in the selection of teachers you are unfit to rule as directors. At present there are under discussion plans of establishing high schools in the country and in touching this line I am doing so as a president of a college that would receive some of the fruits of your labor and I say if you can prepare a student for college do so, but if you can only do this by robbing other children of what they ought to have, don't do it. The principle that should guide you is the greatest good to the greatest number. Only 2 out of every 100 in the public schools go to college. I recently attended a school conducted by several graduates of college and was shown an essay on scientific farming by a girl of 17 which was a revelation. The country is losing some of its sons because they do not realize the possibilities of agriculture. I am told that it is entirely possible for a township, or several of them to employ a young man to go from school to school and give training along agricultural lines. I believe the value of land could be increased 40 to 60 per cent. by scientific farming. Why not start education along this line and make Adams county the leader in scientific farming by teaching it in your schools.

A roll call disclosed the fact that about 150 directors were in attendance.

Election of officers resulted in the selection by acclamation of Josiah W. Prickett of Menallen, for president, John A. Knouse of Arendtsville, and Allen J. March of Abbottstown, as vice presidents, Harry E. Stambaugh of Abbottstown as Secretary, and Gilbert Bucher of Franklin, as Treasurer. The five delegates elected to the next State Convention were John A. Knouse of Arendtsville, Levi J. Deardorff of Straban, J. Harry Holtzworth of Gettysburg, W. D. Myers of Hamilton, and Chas. K. Forry of Berwick township, and the alternates were Aaron L. Weidner of Arendtsville, George E. Fohl of Menallen, Reuben Schwartz of Mt. Joy, G. M. Bacher of Franklin, and L. C. Bosserman of Latimore. The convention then sang "Old Lang Syne," and were treated to a vocal solo by W. A. Logan of college.

Hon. Geo. J. Benner, in addressing the directors said that advantage had been taken of him by calling what he should say as an address and also in placing him along with Dr. Hefelbower who speaks by authority. I want to talk to and with you as to the development of the public school system. I recently attended a social feature in Cincinnati in which great numbers were deeply interested. Dr. Withrow of the school board of that city gave illustrations of the large expenditures on the schools of the city, making bare statistics interesting and the audience listened with wrought attention. The thought predominating was that the better the school, the better the teacher, the better will the city be and more can be depended upon from on coming generations. I find in Gettysburg in the election just past an issue being made of the expenditure for the school building on York street. There was no hint of graft or that it was a job, but a question of an increase of taxation. Economy of this kind is often ill advised. \$1 spent now by parents on school education is better than a legacy of \$100 left to children after you are gone. There is no more ill advised economy than a pinching in matters of school taxation. If you do not agree with me, ponder upon it. Alluding to your duties it is a pity that a school director or a road master should ever become a prerequisite for political work. It is a pity that politics should ever have anything to do with the election of a school director. Your two most important duties are to see that your children be properly housed and properly taught. The selection of proper teachers is of the utmost importance. I tell you that you want your boys to be gentlemen and your girls ladies when they come out of school. The child learns from the habits, manners and talk and personality of the teacher. A requirement in the business world today is, is he neat, is he clean. Do you want your boy to be that, then let your teacher be that. The final test is, is he welcome to your family, is he one to be trusted in your family and if he is not that he is not what he ought to be. One of your duties is to visit the schools. I have known boards who allowed one of their number to do this work. If you do this you are not doing what you should. In selecting teachers if you are controlled by any other motives than to get the best you are violating your obligation. If anything outside of superior qualifications is considered you are violating your obligations. And I say any violation will have to be answered for the cries of children may reach you before you reach the bar of final judgment. I hope your people will feel when you return home that you have received suggestions here that will result in the children being better housed and better taught.

Query.—In selecting text-books should the school board consult the county superintendent?

Henry Butler of Conewago. The question of selecting text-books comes up once a year. If we ask the superintendent to advise all the time it might come to pass that he would have an axe to grind in recommendations. There are other ways of securing information about books.

Josiah W. Prickett of Menallen, to new members having books thrown down to them is an embarrassing position. Dr. Schaeffer advises consulting superintendent on technical points and text books seem to me would present technical views and I would be awfully glad to have some advice at times. Ira P. Taylor of Menallen, it would

be a very good idea to consult our superintendent. As farmers we are not familiar with text-books and it would be well to have his help in selecting the text-books.

Henry Butler was of the opinion that from the legal point of view the duty of selecting text-books is on the directors and teachers and not on superintendent.

Query.—What plans have the directors for visiting the schools?

James C. Wright of Bendersville, I heard a scholar recently say the directors were coming and they were to be prepared. The best plan is to drop in most any time during the sessions. If they know when we are coming they will be prepared and such visiting is not worth while.

Allen J. March of Abbottstown, the best plan is to visit often, whenever you can. It is well to go in a body sometime, but each director should go whenever he can alone.

John T. Barton of Hamiltonban, a school becomes excited if the directors go in a body and children can not do their best. Directors should not go in a body.

Ira P. Taylor of Menallen, I think it would be a good thing to ask all the directors whether they have visited their schools and what they did when they went in. I have been in eleven or twelve schools in my township. I went to one school prepared to growl but found the school was well conducted and told the children to so tell their parents. We can be of much help in difficulties arising from time to time.

Mrs. E. Dale Heiges of Biglerville. We ought to have some system in our visiting, but never let the schools know when we propose to go. A system will help the director in this work.

W. D. Myers of Hamilton. In our township we have a committee of two to visit the schools and one director recently reported having visited all the schools.

Moses M. Black of Menallen.—It is almost impossible in a township like Menallen for every director to visit all the schools and each director selects the schools which he visits once a month and the other school once a year. It would not hurt a director to stay half a day in school instead of ten minutes.

Query.—Could the rural schools profitably sustain a term of eight months?

Henry Butler of Conewago. Suppose we get at it this way, more school term more appropriation.

P. A. T. Bower of Butler. In some districts a longer term would be all right but in the farming districts seven months ought to be sufficient, but there ought to be some arrangement that those who want to go longer could do so in other districts.

Wm. E. Kapp of Biglerville. I am not in favor of a longer term than 7 months in our rural schools.

J. T. Barton of Hamiltonban. I think the rural school should cover as much time as the town school.

P. A. T. Bower. In our district we have twelve schools and if we continue longer than seven months we would have no pupils.

Mrs. E. Dale Heiges of Biglerville. My experience as a teacher is that the teacher had much trouble to get the scholars there for a seven months' term and more could not be successfully managed.

Ira P. Taylor of Menallen. I think we ought to have the privilege of sending pupils to town schools.

J. O. G. Weaver of Gettysburg. If the country children come into town we would not have building room enough for them.

Allen J. March of Abbottstown. Select schools provide for those who want to go longer.

Chas. W. Biesecker of Hamiltonban. Seven months are enough and we should have the other months to keep our children at home to get acquainted with farm and so get agricultural training.

Josiah W. Prickett of Menallen. We read much these days of manual training and seven months in school and five on farm is needed to give our scholars manual training.

After singing convention adjourned.

Thursday evening the Arendtsville Glee Club delighted the large audience opening the session with song, singing between the two lectures and closing and responding with encores, their very excellent singing being enjoyed by all present.

Dr. A. C. Rothermel of the Kutztown Normal School spoke on "Leadership," saying that a leader will always owe his leadership to some strong quality. Self-reliance was a quality of leadership. A second quality was self-confidence, rising above weakness by trusting in oneself. Leaders believe in their own powers. One of the greatest things an individual can do for another is to make the other believe in himself. Leaders must have ideas, must see things as they are and as they ought to be. The third quality is courage. This quality of leadership should be sought in the teacher. It is necessary for the boys and girls to have the inspiration of the splendid power of a splendid leadership.

Dr. C. H. Gordinier of the Cumberland Valley State Normal School spoke on "Nozzles." The power of the stream of water at a fire is increased and concentrated by the nozzle and all power needs nozzling. Physical power is admired. In every school there ought to be 5 to 10 minutes devoted to light calisthenics for deep breathing but physical power should be nozzled by moral character. Intellectual power must be nozzled with sanity, ability, to see things in their true proportions. Spiritual power is the power which

comes from ones own personality and must be nozzled by fraternity, the spirit that compels me to look at every man as my fellowman. Our churches will never be what they ought to be until dominated by the spirit of the brotherhood of man. The nozzle for commercial or industrial power is altruism. Our girls and boys ought to be taught there are other people in the world with rights to be respected and if they were taught that and went out into the world, we would not have to worry about monopolies, trusts, boycotts, etc. Political power should be nozzled by equity or the square deal. Social power by the spirit of culture to teach them how to use their time for the good of their fellowmen. At this point he declared a national divorce law ridiculous. It was only offered as a cure. What we want is a preventive such as a national marriage law to require all applicants for marriage to pass a mental, physical and moral examination and bring to an end where criminals and defectives breed criminals and defectives. The power of wealth should be nozzled by character and all these powers can be nozzled by education.

The demands on our space this week have been so great that the account of sessions of the School Directors' Convention on last Friday will be continued to our next issue. This meeting was deemed of such importance that a full report has been considered most desirable.

Teachers' Institute.

The second educational rally of the teachers of Adams county, was held in the Gettysburg High School building, Saturday, Feb. 19th.

Supt. Roth convened the morning session at 10:30. After the devotional exercises, conducted by Rev. Henry Anstadt, the convention divided into two Associations, the "Primary Teachers" and the "Rural Teachers." These rendered interesting programs in separate rooms.

The primary section was presided over by Mr. Hiram Lady, the president of the Association. The secretary, Miss Myra Ruff read the minutes of the last meeting. Miss Stambaugh discussed "The Backward Pupil in the Primary School." Prof. Gordinier asked the question "Should pupils be admitted to the schools at the age of six or seven years?" Miss Ruff, and Miss Kittinger followed in the discussion of "What is meant by a 'feeder' being useless to his pupils?" An address was then given by Prof. Gordinier of the Shippensburg Normal School, in which he continued some of the subjects upon the program, adding interest and valuable suggestion to what had been given. The meeting then adjourned.

The Rural Teachers also held a very enthusiastic session, with Mr. Cecil Stover as president, and Miss Alice Miller, secretary. Mr. Melvin Cook spoke of "How the home may help the child," that parents should become acquainted with the teacher, should from time to time talk over the work, also over the physical condition of the child. He spoke also of the parents duty in keeping the child in the school every day during the year sickness alone being taken into consideration as excused for absence. Mr. John Black urged the importance of pupils being self-helpful. The teacher must train them to do their own work, thus preparing them to meet life as it must come to them. Dr. Rothermel of the Kutztown Normal School made the "Personality of the Teacher" the subject of a strong address. "Personality," he says is the sum of all the powers of an individual. Strength of mind and will constitutes strong personality. Sympathy, fineness of spirit, a broad outlook, high ideals, willingness to make sacrifices are some of the greater qualities to be found in good personality. "The speaker stated further that it is possible to develop these in the child in the direct way of example, remembering that life handles life, that personality develops personality, indirectly much may be done by good literature, creating an attitude toward truth and great things of life. One great purpose of strong personality, is to stand a friend in need intellectually and morally to those whom circumstances have made weak and faltering. After this address the session adjourned.

Following the adjournment of the morning session a lunch was served by the teachers of Gettysburg, assisted by the patrons. This was an enjoyable feature not only because of the good quality of the lunch, but also for the pleasant social hour they spent.

The afternoon session was held in the assembly room. It was opened with singing. The first address was given by Dr. Gordinier, "Wanted, a Boy," he defined the genus "boy" with his usual originality and humor, giving an effective character study of what a man wants when he advertises for a boy. Making use of the word "vibgyor," a word made with the initial letters of the primary colors, he enumerated the qualities that are needed in the boy. First, he must possess "virility," the true masculine element; second, he must show the spirit of "industry"; third, he must be "brave" morally, morality will exist in the boy when the proper spirit permeates the whole student body;

fourth, "Le must have 'gentleness'—[laughter] may become a gentleman; fifth, he should be "youthful," a real boy, not a little old man; sixth, he must be "obedient," for the ideal life is obedient to the law; seventh, the last and greatest needed quality is "reverence." A combination of these seven elements make the good average boy. At the close of this address, a chorus of boys and girls from the High School sang a very delightful number entitled "We Rock Away on the Billows Gay."

Miss Bertha Herring of the Harrisburg High School was then introduced and gave a most practical talk upon the subject of reading. She then read a selection from "Aunt Jane of Kentucky." Miss Herring's reading is the most effective proof of what can be done by one who has mastered thoroughly the art of reading well.

The last address of the afternoon was made by Dr. Rothermel upon the "Will." He said in substance that the individual must follow the prerogative of independent choice. The eye must be the determining factor. Choice is of three kinds—reasonable, accidental, or determined by the mind. There are three types of will. The first acts from impulse, the child who thus acts is the "motor child." Such children respond readily to the suggestion of the parent or teacher. The second is the obstinate will existing in the individual who knows what to do, but can not get started, who knows better, but cannot become better. The third, neither impulsive on the one side, or obstinate on the other is the strong will. It is found in the man who knows what is to be done and will do it. A man who resolves upon the doing and summons the will to accomplish is the man with the strong will. After this most helpful address the meeting adjourned.

This particular phase of educational convention is an innovation in the county, and but two have been held, the first at Abbottstown. The roll call at this, the second, summed up 113 teachers, more than half the number in the county.

While the Gettysburg teachers are to be congratulated upon the successful outcome of every detail, yet they could feel amply repaid not only by the appreciation expressed in the vote of thanks but also by hearty good will and kind expression of enjoyment.

Home Cure for Eczema.

Does it not seem strange that so many people suffer year in and year out from eczema?

A 25-cent bottle of a simple wash stops the itch and will surely convince any patient.

This wash is composed of mild and soothing oil of wintergreen mixed with thymol and glycerine, etc., and known as D. D. D. Prescription. We do not know how long the D. D. D. Laboratories will continue the 25c offer, as the remedy is regularly sold only in \$1.00 bottles and has never before been put on the market on any special offer.

If you want relief to-night try a bottle at 25c on our personal recommendation. People's Drug Store, Baltimore St., Gettysburg, Pa.

DEATH LIST.

JACOB KNISLEY, died near York Springs, Feb. 12th, from gangrene, 77 years old. Eight years ago he had his right foot amputated at ankle to prevent development of gangrene but several years ago the left foot became infected resulting finally in death. Funeral Tuesday of last week. He leaves two daughters, Mrs. E. K. Heiges of near York Springs, and Mrs. W. J. Dicks of York Co.

MRS. ALFRETTA WALTERS, wife of George W. Walters, died last Thursday at Midway of tuberculosis, aged 34 years 11 months and 17 days. Funeral on Monday at St. Vincent's Catholic church, interred in St. Joseph's Catholic cemetery of Hanover. She leaves husband, two sons and two daughters. She is also survived by her mother, Mrs. James Hocken-smith of Bonneville, and several brothers and sisters.

MRS. M. A. BROOKS, died in Baltimore aged 75 years. She was the mother-in-law of Dr. George L. Rice, and grand-mother of Dr. A. C. Rice. The funeral services were conducted by her grand-son, Rev. Fr. George L. Rice, Jr., of Harrisburg, for a short time assistant here.

GENERAL ST. CLAIR A. McILHON- LAND died at his home in Philadelphia last Thursday aged 73 years. He was a native of Ireland, came to America early in life and lived greater part of his life in Philadelphia. As an artist he won recognition as a painter of marine views. During the Civil War he enlisted in 116th Regt. Pa. Vol. and won promotion from Lieutenant Colonel of that regiment to the brevet rank of Major General of volunteers. For distinguished valor at Gettysburg he was awarded a medal of honor. For many years he was a Democrat, being appointed Pension Agent at Philadelphia by President Cleveland, and in 1896 leaving Democratic

This Is An Easy Test.
 Shaeke Allen's Foot-Ease in one shoe and not in the other, and notice the difference. Just the thing to use when rubbers or overshoes become necessary, and your shoes seem to pinch. Sold Everywhere, 25c. Don't accept any substitute.

R. R. Rowe Refuses Big Offer.
 Robert R. Rowe, formerly of Gettysburg, was recently offered nearly eight thousand dollars a year to take charge of the publicity department of a wellknown life insurance company, it being quite the fashion these days for all corporations to have "press agents." Mr. Rowe, who is spending the winter at the Royal Poinciana Hotel, Palm Beach, Florida, and who will go to Aiken, S. C., for the early spring, has decided to continue with Town Topics. He has become quite the best known writer of society topics in New York, and knows more prominent society people than any other newspaper man in the city, which is the principal stock in trade in paraphrasing the rich.

Accident in Bridge.
 A serious accident happened last week in the Bonneville bridge at edge of town. Mrs. Edward Redding had driven into the bridge and a second team of John Rinehart followed. The pair of horses in latter team took fright and running against the Redding sleigh upset it as well as sled they were attached to. Mrs. Redding was accompanied by her four year old son, who had his leg broken at the thigh. Mrs. Redding and the two men on sled escaped with a few bruises.

Monument Dedication.
 The new Pennsylvania memorial on the battlefield of Gettysburg located on Hancock Ave., the design of which is a Triumphal Arch will be dedicated on September 17, 1910. The occasion will undoubtedly attract many visitors. Though work is advanced, there remains much to be done in the next seven months.

Contemptible Outrage.
 Harry T. Smith living on Emory Cleveland's farm in Straban township was the victim of a contemptible outrage. A mare heavy with foal was cut with a sharp instrument a distance of 13 inches, passing through three muscles and into the bone. The deed was done in day time during his absence from farm. Dr. Hudson put in 9 stitches to close wound, the Dr. and all who have seen animal say it was impossible for the wound to have been made except by a sharp instrument. Mr. Smith has been unfortunate of late, but recently home from hospital.

To Give Play at Cashtown.
 The Civic League of Cashtown will give an entertainment—a play—in the School House of that town on next Saturday evening, Feb. 26. Tickets can be had at the Cashtown stores.

A Novel Introduction.
 The Dr. Howard Company have entered into an agreement with L. M. Buehler's drug store, by which a special introductory offer will be made of 25 cents on the 50 cent size of their celebrated specific for the cure of constipation and dyspepsia.
 So remarkably successful has Dr. Howard's specific been in curing constipation, dyspepsia and all forms of liver trouble, that L. M. Buehler will return the price paid in every case where it does not give relief.
 L. M. Buehler has been able to secure only a limited supply, so everyone who wishes to be cured of dyspepsia or constipation should call upon him at once or send him 25 cents by mail, and get 60 doses of the best medicine ever made, on this special half price introductory offer, with his personal guarantee to refund the money if the specific does not cure.

The great success of "Onyx" hosiery is due to its perfect black and its superior quality, shape and finish. It is guaranteed not to stain the feet, continual washing does not change the beautiful Black; it remains perfect until the hose is worn out.

Baseball Association Organized
 A number of our citizens interested in the national game met at the Hotel Gettysburg on last Thursday evening and decided to organize a Gettysburg baseball association. It is proposed to support the association by monthly subscriptions paid during May, June, July and August. Dr. E. H. Markley was elected manager and Dr. Markley, Roy E. Zinn, Maurice Ziegler, Albert Swisher and John Sachs were named as committee to solicit subscriptions. After the status of the association has been assured steps will be taken to organize a county league.

Lawlessness
 The town was treated to a display of lawlessness last Thursday night. Four window panes in the garage of the Gettysburg Motor Co., on South Washington street, owned by Geo. Eberhart were broken. They also broke several peanut machines, one in front of the grocery store of E. P. Wisotzky on Washington street, and one at the restaurant of John A. Menchey on West Middle street. The identity of the perpetrators of this lawlessness have not been discovered but efforts are being made to find them out and put a stop to this kind of work. While the peanut machines were broken the money in them was not removed.

"The Toast Master," is name of play to be given at Walter's Theatre, on March 3rd, for benefit of Citizens Band of Gettysburg.
 —Sheriff Fissel has as boarders, Ollie Carter on two charges of assault and battery, and Ollie Carter, Ed. Richardson and Theodore Sampson, all colored, charged with breaking windows and peanut machines.

Town Council Meeting

At a meeting of the Town Council on Tuesday evening of last week the matter of the dog quarantine was discussed at length and it was decided to request Dr. S. H. Gilliland of the State Live Stock Sanitary Board to send a State officer here to enforce the law. The disposal of the dogs was also discussed. Several members were op-

posed to the shooting of dogs on the streets and were of the opinion that they should be caught and taken beyond the borough limits and killed, but no action was taken.

A dog ordinance was presented and adopted providing for the muzzling of dogs between June 1 and Sept. 1, and at any other time that Burgess might order. That dogs running at large shall be captured and held 24 hours

after notices are posted in five places. If the owner calls within the time, the animal can be recovered by paying \$2.00, otherwise it will be killed.

A Tungsten light was ordered to be placed on Steinwehr avenue between Washington street and the borough limits.

The picture show license was fixed at \$5 a month or \$40 per year, to be paid in advance.

It was decided that Fourth street should be opened and the ordinance committee was directed to draw up ordinance for the opening of the same.

One hundred and one farmers and hucksters presented following petition to the council as to a curb stone market, action being deferred to later date.

"We, the undersigned farmers and truckers, who raise farm and garden products for the Gettysburg market, do most cheerfully recommend the establishment of a market house or a good curb market where we could display and sell our products.

"Such an arrangement will give the citizens better service and better products, and at such prices as will be uniform, and prevent imposition on the people. The same should be regulated by ordinance, and the establishment of such a market would be more satisfactory all around, and give the citizens of Gettysburg a better variety as well as a better quality of products."

The Town Council met on Friday evening and took up matter of taxes with Tax Collector Wm. H. Frock, and allowed a number of exonerations.

—John Kendeheart, Esq., of Harrisburg was here a short time last week.

Several Recent Runaways.

A horse of Allen Guise, of Tyrone township, broke loose at Mt. Tabor on a recent Saturday and was not found until Monday afternoon when it was discovered standing between two trees in woods near Upper Bernadine church with sleigh attached.

Charles Criswell and wife were out sleighing and their horse took fright going down Main St. of York Springs and ran at full speed through that town. Mr. Criswell trying to keep the horse in street while his wife tightly held her lady. The horse dashed into several sleighs in front of Gardner's store, wrecking them and became helplessly entangled so that the Criswell family were rescued.

Joseph Conrad, of McSherrystown, on his way to Hoke's lime kiln drove under the elevated railroad bridge and passing trolley frightened horse and it ran away. The wagon collided with a pole, releasing horse and throwing Mr. Conrad out, who escaped uninjured.

Amos Sponseller, the New Oxford huckster, had gathered a sled load of ten calves and sled struck a snow drift on Gettysburg turnpike and overturned. The team halted. Mr. Sponseller caught two calves attempting to escape, each by hind leg and waited half an hour until his calls brought assistance and the sled was righted and he was able to go on his way.

A horse of Ervin Yohe, tied in shed in New Oxford, was untied and driven very hard and was not found until the following day when it came to the home of Mr. Spahr on the Berlin road. There was nothing broken about the buggy or harness but lap robe and whip were missing.

A Runaway Car

A loaded box car in being shifted by crew of the Berlin branch railroad at the Junction, ran out on the W. M. road and started down the steep grade toward Hanover at a fast speed. The engineer went after it with his engine at a good speed, and fortunately all the couplings were properly set, and when he ran against the car the coupling set and car was returned to branch road. This happened fortunately when the W. M. track was clear of trains, though it was close to the time of the morning mail train.

The Usefulness of "Central."

The telephone subscriber has come to regard "central" as an ever-available bureau of information. The score of the ball game, the latest election returns, the location of the big fire the night from which can be seen on the horizon, and even the exact time, are all points on which the long-suffering operator must be posted.

The other day, according to the Operating Bulletin of the Chicago Telephone Company, a man called up a suburban exchange, and said, despair in his voice:

"My wife has gone out, leaving word for me to cook the spinach for dinner, but I do not know how long to boil it."

The operator switched the subscriber to the supervisor, who had been to cooking-school, and she promptly told the man all he needed to know about the treatment of spinach.

A Ceremony Denied.

A Vienna merchant who had spent the summer vacation at Altenberg, after reaching home sent an oil painting of the Madonna to the authorities of the vacation resort, with the request that it be placed in the spring-house. He asked also that a priest be requested to officiate when the painting was unveiled. Father Steidt of St. Andrew's was selected to carry out the request, but sent word that he would not bless the picture until he had the assurance that the wife of the painter, "and no other woman," had served as model. As it was impossible to secure this statement, the authorities had to dispense with the religious ceremony.

One Part of Meeting.

"Did you ever meet an old friend whom you didn't meet?" was the enigma put up to a Harlemitte by a neighbor. The Harlemitte never did.

"I did this morning," the neighbor explained. "I was rushing downtown on a subway express. We passed a local, also southbound under somewhat less speed. I was hanging to a strap, and as I gazed into a car of the local that was opposite my car I recognized a man I had known intimately, but had not seen for 15 years. He recognized me at the same moment and there was a mutual salute. Then my train forged ahead of the other and he was lost to sight."

"You see, I met him, yet I didn't meet him."—New York Globe.

Natural Progression.

Mrs. McCall—How about your servant girl? The last time I saw you you complained about her being so very slow.

Mrs. Hiram Offen—Oh, she's progressing.

Mrs. McCall—Indeed?

Mrs. Hiram Offen—Yes; she's getting slower and slower.

THE PROPER COURSE

Information of Priceless Value to Every Gettysburg Citizen.

How to act in an emergency is knowledge of inestimable worth, and this is particularly true of the diseases and ills of the human body. If you suffer with backache, urinary disorders, or any form of kidney trouble, the advice contained in the following statement will add a valuable asset to your store of knowledge. What could be more convincing proof of the efficiency of Doan's Kidney Pills than the statement of Gettysburg citizens who have been permanently cured?

Mrs. Elizabeth Beidler, 1 Steinwehr Ave., Gettysburg, Pa., says: "I am just as willing to recommend Doan's Kidney Pills today as I was two years ago when I publicly told of my experience with them. I was afflicted with kidney and bladder trouble and all my efforts for relief were unavailing. The kidney secretions passed irregularly and caused much distress. Pains often shot across my body and my health was all run down. Hearing so much about Doan's Kidney Pills, I was led to get a box at the People's Drug Store and give them a trial. They cured me and I have since enjoyed good health."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

Suit Over an Estate.

Rev. Charles M. Eyster, pastor of First German Evangelical church, Baltimore; Mrs. Eyster, his wife, and Mrs. Martha Crumrine, his mother-in-law, all well known in Gettysburg, Mrs. Crumrine having been a daughter of the late George Weaver of this place, filed a suit in the District Supreme Court at Washington last week by Lawyer Percival Marshall, against Mr. and Mrs. George P. Hart, Mr. M. J. Colbert, their lawyer, and Mr. John D. Sullivan, in which they demanded an accounting of the Hart family for a piece of land held under a deed of trust. Mr. Eyster and his relatives are the executors and residuary legatees of the will of the late Major Augustus O. Brummel, a former irrigation expert and land prospector, who was born in Hamstead, Carroll county, where Mr. Eyster was once stationed. Major Brummel died on June 20 last, and having no close relations that are known, appointed Mr. Eyster and his relatives to execute the will. Mr. Eyster says he has no idea of the size of the estate.

A Safeguard to Children.

"Our two children of six and eight years have been since infancy subject to colds and croup. About three years ago I started to use Foley's Honey and Tar, and it has never failed to prevent and cure these troubles. It is the only medicine I can get the children to take without a row." The above from W. C. Orstein, Green Bay, Wis., indicates the experience of thousands of other users of Foley's Honey and Tar. Sold by Peoples Drug Store.

MYER MILLER, at one time a resident of Littlestown, will move his Hanover store to York.

DO THE RIGHT THING if you have Nasal Catarrh. Get Ely's Cream Balm at once. Don't touch the catarrh powders and snuffs, for they contain cocaine. Ely's Cream Balm releases the secretions that inflame the nasal passages and the throat, whereas medicines made with mercury merely dry up the secretions and leave you no better than you were. In a word, Ely's Cream Balm is a real remedy, not a delusion. All druggists 50 cents, or mailed by Ely Brothers, 56 Warren Street, New York.

Beware of Ointments for Catarrh that Contain Mercury

Mercury will surely destroy the sense of smell, and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten-fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure, be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by druggists. Price 75c. per bottle. Take Hall's Family Pills for constipation.

DRY GOODS

Ladies' Ready-to-Wear Goods

AND CARPETS

ANOTHER fiscal year has begun---the 26th---we expect to celebrate it on date of beginning business, April 10th.

As most of you know our business has had a remarkable growth, owing to the fact that we begun and maintained the "Fair Deal" to all and besides that, we "had the goods" when people wanted them, and we had them at the right price.

We begin this new year with an extraordinary stock in every department, and we are ready to serve our customers not only with seasonable goods, but with goods ahead of the season.

Our contracts were made months ago with mills and distributors, and you see no change in prices in any of the lines we show---except in possibly a few items. Our large buying brings us lower prices on many lines, not obtainable by smaller operations.

We are ready with new goods, in every department, and show you a city store stock at prices based on goods bought right and sold on the basis of country store expenses.

The New Silk and Messaline Dresses are Here

Made by men dress-makers and up to the minute in style at less than goods and making cost at your dress-makers.

The New Skirts are Here

We are showing the new pleat style, with tunic effects---fully fifty styles and qualities now here.

The New Tailored and Lingerie Waists are Here

Made in sanitary factories by experts---fit right, made right, look right, priced right. You must see them to fully appreciate their worth.

The New Muslin Underwear Is Here

The much talked of high prices is only actual on Muslins, which are from one to two cents higher per yard in our stock than they were a year ago. But we give as full and as good a gown or skirt or any other part of Lingerie at identically the same price as last season---for instance, we will give you a gown or skirt at 50 cts. that has 50 cts. worth of material in it---with right making thrown in.

Gowns from 50 cts. to \$2.50

Corset covers from 12 cts. to \$1.00

Skirts from 50 cts. to \$4.00

Drawers from 25 cts to \$1.00

We are willing to compare these goods with any advertised anywhere---correct size, making and quality as a consideration. There is no skimp in size to keep the price down.

Combination Sets and Princess Slips are Here---The Embroideries and Laces are Here

We have customers, among our regular town visitors, who put off filling their wants until they visit here---because---of the larger and better selection to be found with us. No store in the county carries so large a line as is to be found with us. We are buyers direct from the largest importers. Write to us for samples if you cannot come to see us.

The New Suits are Here

We are offering best values at \$12.00 to \$20.00 we have ever shown. Suits and skirts made to order by the American Ladies' Tailoring Co., of which we are agents.

The Newest Dress Goods for Spring Is Now Here

The New White Goods are Here

Fine French Lawns, French Batistes, Imported Persians, Mousselines, French Nainsooks, &c., here in an assortment of qualities: with all the Domestic Indias, Persians, Flaxons, &c. Early brides, attendants and school graduates should be interested in this line---as we show a line not to be seen outside of the cities, and the prices will suit you too.

The New Wool Dress Goods are Here

Many stores have taken the notion that because of the ever increasing sale on Ladies' Ready-to-Wear Goods it is not necessary to stock up in piece goods. Our experience has justified us to select and contract for the usual amount, and we have now on our counters a selection fully as large as at any time in our store's history, both in Black and Colors---in all the most desirable weaves. If you cannot visit us, send for samples.

The New Dress Silks are Here

We believe that Silks will hold a greater place, in both gowns and separate waists, in fashiondom than for several years past. We have, therefore, prepared for it---Rajahs, Pongees and weaves of that character will possibly lead and will be found in great variety here, while Taffetas in Black and Colors hold second place to Satin-faced materials in plain and fancy, including Satin Foulards of which we show twenty or more patterns in almost as many shades.

The Best \$1.00 Taffeta in the Country.

The Kishi and Fugi Silks and goods of that kind are here.

This season has produced more kinds of Half Silk Fabrics, suitable for evening and party gowns, than ever before. All the new shades and colors will be found in our stock---at a range of prices. There are few things that make up as rich for dressy purposes, at so little cost, as these Half Silk goods.

A Fine Display of Beautiful Effects in Floor Coverings

The New Carpets and Rugs are Here

Our Mr. U. G. PHEASANT, who has had charge of our carpet department for nearly a year, has very much increased the stock and through it also the sales. He is prepared for this season with a stock that cannot be excelled in assortment of patterns in all kinds of wanted Carpets and Rugs, Wilton

Velvet, Axminsters and best Tapestries made into bordered Rugs in any desired size. No charge for sewing any carpet.

LINOLEUMS in all widths from 1, 2, 2 1-2, 3 and 4 yards---in a number of patterns and several qualities.

50 Rolls CHINA and JAP MATTINGS in fine qualities---fresh and new.

Crex MATTINGS and RUGS, all sizes.

LACE CURTAINS and DRAPERIES of every character in great variety of patterns and qualities.

This department furnishes every part of the house, from floor to windows, and at a saving over the usual of most stores with the advantage of a large selection.

Every Department is Full Stocked and Invites Your Attention
